

Mantoux Test

Your doctor has referred you to QML Pathology for a Mantoux Test.

This is a special test which requires two separate appointments.

- The **first appointment** involves a doctor or a registered nurse administering a tuberculin injection. The doctor/registered nurse will advise on location to return for the second appointment
- The **second appointment** is required for the Mantoux Reading. This reading must be performed within **48 – 72 hours** post tuberculin injection, otherwise the test will need to be repeated. The reading is only performed at **select locations**.

Booking your Mantoux Test:

Only certain centres perform this test and reading. Please check qml.com.au/CollectionCentres.aspx and search by Mantoux in the test drop down menu for details.

Location for Mantoux Test (tuberculin injection):

Location for Mantoux Reading:

Staff and patients need to work and be cared for in a safe environment. Violence and verbal abuse will not be tolerated.
