

Low Purine Diet

If your doctor requires a 24 hour urine collection for uric acid, you may be required to follow this diet for three days prior to the collection.

Avoid the following:

- Organ meats (brain, kidney, liver)
- Wild game
- Poultry (chicken, duck, turkey)
- Meat (beef, lamb, pork, veal)
- Meat extracts (Bonox, Vegemite)
- Fish
- Shellfish
- Wholegrain products
- Green peas, dried legumes
- Cauliflower
- Asparagus
- Spinach
- Mushrooms
- Aspirin
- Cocoa

The following are acceptable for a low purine diet:

- Fruits
- Fruit juices
- Vegetables (except those above)
- Nuts
- Cereals, breads (except wholegrain products)
- Sweets
- Beverages (coffee, tea, carbonated)
- Fats
- Eggs
- Cow's milk
- Dairy products

Staff and patients need to work and be cared for in a safe environment. Violence and verbal abuse will not be tolerated.

Find a collection centre.

For a full listing of all TML Pathology collection centres and their operating hours, please scan the QR code with your smart phone or visit tmlpath.com.au.
